

STEEN

SPARKLING WINE

If I could drink only sparkling wine forever, I would. That craving is the inspiration for this wine. Silky textured with ripe melon and tropical notes, this sparkler is great for mimosas at brunch or with oysters in the evening. The 7% Hanepoot, also known as Muscat, adds just a hint of sweetness to the bright, fresh mineral-driven Chenin Blanc, or Steen as we call it here in South Africa.
